

# Vehicle Import Compatibility (Admissibility) list for vehicles purchased in the United States

**Disclaimer:** This list is compiled by Transport Canada for the Registrar of Imported Vehicles (RIV) program using information provided by vehicle manufacturers on a voluntary basis.

**Its accuracy cannot be guaranteed and its content is subject to change without notice.**

There are also no guaranties that a vehicle deemed admissible on the list can be successfully modified to meet Canadian requirements.

For detailed information about the entire procedure to follow when importing a vehicle purchased in the United States, please contact the RIV at **1-888-848-8240** or visit their Web site at [www.riv.ca](http://www.riv.ca)

## - EXPLANATIONS ON MANDATORY COMPLIANCE – (1 of 3)

1. A U.S. specification vehicle is a vehicle designed, built, tested and certified by the **original equipment manufacturer (OEM)** to meet all applicable U.S. Federal Motor Vehicle Safety Standards (FMVSSs). Where a U.S. specification vehicle is listed as **ADMISSIBLE**, and requires modifications, it may be extensive and expensive. Importers should determine the cost and extent of any required modifications before importing a vehicle into Canada. Vehicles that cannot be modified, for whatever reason, must not remain in Canada and must be exported. Where there is no information in this list concerning a U.S. specification vehicle, you must contact the manufacturer to determine its admissibility or inadmissibility. Manufacturers of U.S. vehicles are not legally obligated to respond to Transport Canada's requests for information on admissibility status or required to explain the reasons for inadmissibility, although some do. Transport Canada is not legally responsible for the accuracy and safety or cost implications of the information provided by OEMs.

2. Admissible vehicles, except competition vehicles, snowmobile cutters and all terrain vehicles (ATVs), must be certified by OEMs to all applicable U.S. Federal Motor Vehicle Safety Standards (FMVSSs). Two criteria can be used to determine this:

a) a compliance label affixed to the vehicle at the time of main assembly with one of the following statements,

**"This vehicle conforms to the applicable federal motor vehicle safety, bumper and theft prevention standards in effect on the date of manufacture shown above";** or

**"This vehicle conforms to all applicable U.S. federal motor vehicle safety standards in effect on the date of manufacture shown above";** or

b) a letter from the original manufacturer and the final stage manufacturer (if applicable) containing the same information as would appear on the compliance label.

3. Vehicles that have been modified from their original state, other than regular maintenance, may not be eligible for importation into Canada. For example, a van transformed into a motorhome (often known as Class B motorhome), a van equipped with raised roof and/or modified interior, a pick-up or a passenger car equipped with lift kit, a motorcycle converted to a motor tricycle (trike), etc.

4. Some vehicles in SECTION 3 - Passenger Cars, SECTION 5 - Multipurpose Passenger Vehicles, and SECTION 12 - Trucks, Are marked with either a) an arrow '>', or b) '[EIS]', or c) '>[EIS]', explained as follows:

- a) an arrow '>' indicates that a vehicle will require modification to accommodate child tether anchorages (modifications may be extensive and expensive);
- b) an '[EIS]' annotation indicates that the vehicle is either equipped with an electronic immobilization system installed by the manufacturer, but not certified to meet CMVSS 114, or that no electronic immobilization system is installed (please see paragraph 9 of these explanations for further information on immobilizers); and
- c) an '>[EIS]' annotation indicates that the vehicle requires modification to the child tether anchorages and that some action is required on the immobilizer (see paragraph 9 for details). Where an arrow '>' and an '[EIS]' annotation are at the end of a group which lists models joined by a comma ',' or an ampersand '&' sign, all models in that group are affected by the arrow '>' and the letters '[EIS]'

**THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY – Apr/10/2013 Edition**

**- EXPLANATIONS ON MANDATORY COMPLIANCE - (2 of 3)**

5. U.S. vehicles originally equipped with air bags, as required by U.S. safety standards, must have operational air bags at the time of inspection by the Registrar of Imported Vehicles (RIV).

6. All admissible vehicles, including all types of trailers, must bear a 17 character alphanumeric sequence, as required by CMVSS 115 - Vehicle Identification Number (VIN), including snowmobiles manufactured after January 1, 2001 and restricted-use motorcycles (RUMs) manufactured after December 1, 2004. RUMs manufactured before December 2004 must have a VIN composed of between 4 and 17 alphanumeric characters, as required by CMVSS 115.

**7. ACTIVE and U.S. PASSIVE RESTRAINT SYSTEMS** - Passive restraint systems are identified as a motorized upper torso restraint or a door mounted 3-point restraint. The fact that a seat belt restraint system is considered to be active or passive does not in itself determine a vehicle's admissibility or inadmissibility into Canada. What does make this determination is whether or not that vehicle meets CMVSS 210 - Seat Belt Assembly Anchorages. Vehicles identified by their manufacturer as not meeting CMVSS 210 at the time of manufacture are not eligible for importation into Canada under any circumstances. No modifications are allowed to the seat belt anchorage system.

**8. CONFIRMATION OF NO OUTSTANDING RECALLS** - Confirmation that there are no outstanding recalls on a vehicle is a mandatory requirement for the RIV federal inspection program. This confirmation has to be sent to the RIV as soon as possible before, during or after the importation of a U.S. specification vehicle into Canada. The Inspection Form (Form 2) will only be released to the importer by the RIV upon receipt and acceptance of the confirmation of no outstanding recalls. To verify what types of confirmation of no outstanding recalls are accepted by the RIV, please visit their Web site at: [http://www.riv.ca/english/html/recall\\_clearance.html](http://www.riv.ca/english/html/recall_clearance.html). Submit your confirmation of no outstanding recalls to the RIV by e-mail at [recall@support.riv.ca](mailto:recall@support.riv.ca), or by fax at 1-888-642-9899, or mail to 405 The West Mall, Toronto ON M9C 5K7.

The symbol (#) indicates that the manufacturer will not issue a confirmation of no outstanding recalls for vehicles that were once declared "salvaged" in the U.S. Failure to produce this confirmation will result in a failed inspection; therefore rendering the vehicle inadmissible. Please contact your manufacturer in all cases to ensure that this confirmation can be issued.

**9. ELECTRONIC IMMOBILIZATION SYSTEM** - Every passenger vehicle, multipurpose passenger vehicle, truck and three-wheeled vehicle manufactured after September 1, 2007, with a Gross Vehicle Weight Rating (GVWR) less than 4,536 kg (10,000 lbs), except an emergency vehicle or a walk-in van, must be equipped with an electronic immobilization system, as per the requirements of CMVSS 114 - Theft Protection.

Electronic immobilizers typically require a special key or a small electronic device to start a vehicle's engine. This type of system, when activated, prevents the operation of the engine in response to any attempt to start the vehicle without using the authorized key, by shutting off one or more parts of the engine's electrical system. This might include the starter, ignition or fuel system.

Many manufacturers equip some or all of their U.S. market vehicles with electronic immobilization systems that meet the requirements of CMVSS 114, while in some cases these are available only as an option. There are also several U.S. market vehicles that are either not equipped with electronic immobilization systems, or that are equipped with electronic immobilization systems that do not meet the requirements of CMVSS 114. Here are three possible circumstances:

a) **Electronic Immobilizers Installed as Original Equipment and Certified to CMVSS 114**

Vehicles equipped with such systems do not require any special inspection or modifications. They are listed as admissible without any special annotation regarding the immobilizer.

b) **Electronic Immobilizers Installed as Original Equipment but Not Certified to CMVSS 114**

Vehicles that do not comply with CMVSS 114 will require confirmation of the presence of an electronic immobilizer at the time of the RIV federal inspection. They are listed as admissible with a special annotation ([EIS]) regarding the immobilizer.

Demonstration of the presence of an electronic immobilizer can be done through one of the following means:

- presentation of the completed vehicle purchase agreement showing the VIN and indicating the presence of an electronic immobilizer;
- presentation of the vehicle window sticker (Monroney label) showing the VIN and indicating the presence of an electronic immobilizer;
- a letter from the manufacturer showing the VIN and indicating the presence of an electronic immobilizer; and
- other type of information present on the vehicle or on the ignition key or fob allowing the positive identification of such a system.

c) **No Electronic Immobilizers Installed**

These vehicles will need to be fitted with an immobilization system that conforms to National Standard of Canada CAN/ULC-S338-98, entitled Automobile Theft Deterrent Equipment and Systems: Electronic Immobilization (May 1998), published by the Underwriters' Laboratories of Canada, before being presented for registration under the laws of a province. These are listed as admissible with a special annotation [EIS] regarding electronic immobilizers.

**THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY – Apr/10/2013 Edition**

**- EXPLANATIONS ON MANDATORY COMPLIANCE - (3 of 3)**

**9. ELECTRONIC IMMOBILIZATION SYSTEM** (continued)

At the time of the required federal inspection at one of the RIV inspection stations, the importer must present the original invoice (and provide a copy to the RIV) confirming the installation of an electronic immobilizer compliant to CAN/ULC-S338-98, as mentioned above. The invoice must clearly indicate VIN, name and address of aftermarket installer, date of installation, and conformity of the system to CAN/ULC-S338-98.

Importers should be aware of the following **BEFORE** they purchase a vehicle in the U.S.:

- there is no guarantee that an aftermarket immobilizer can be fitted to a vehicle;
- some manufacturers have indicated that the installation of an aftermarket immobilizer may affect a vehicle's warranty;
- some manufacturers have indicated that the installation of an aftermarket immobilizer may affect the performance of certain safety equipment on a vehicle;
- certified installers of CAN/ULC-S338-98 aftermarket immobilizers may not be available in your local area;
- modifications may be complex and expensive; and
- importers enter the importation process at their own risk and Transport Canada assumes no liability.

Transport Canada does not endorse any brand of electronic immobilization systems or installers.

**10. WARNING: Trailers with a Gross Vehicle Weight Rating (GVWR) of 4,536 kg (10,000 lbs) or more manufactured after September 1, 2007** - Every trailer with a GVWR of 4,536 kg or more manufactured after September 1, 2007, must be equipped with a rear impact guard that conforms to Section (3) of CMVSS 223 - Rear Impact Guard.

The only exceptions are:

- a) a pole trailer, a pulpwood trailer, a wheels back trailer or a trailer designed to be used as temporary living quarters;
- b) a low-chassis trailer; and
- c) a trailer designed to interact with, or having, work-performing equipment located in or moving through the area that would be occupied by a horizontal member that meets the configuration requirements specified in the standard.

Most trailers with a GVWR of 4,536 kg or more sold at the retail level in the U.S. and manufactured after September 1, 2007, may not be equipped with a rear impact guard that conforms to Canadian requirements. Before you import a trailer, please make sure it is listed as ADMISSIBLE (see SECTION 11 of this document).

**11. HOME-MADE TRAILERS** - A home-made trailer is a vehicle that has been manufactured by the importer. A home-made trailer can be imported into Canada through the RIV federal inspection program.

**12. DAYTIME RUNNING LAMPS** - Before installing daytime running lamps on your vehicle, you should be aware that many vehicles purchased in the U.S. are already equipped with daytime running lamps. However, their inboard operating systems have not been activated. In many cases, the vehicle manufacturers' dealers are able to activate the daytime function.

**13. IMPORTATION OF VEHICLES (15) YEARS OLD OR OLDER AND BUSES MANUFACTURED BEFORE JANUARY 1, 1971** - Vehicles fifteen (15) years old or older, as determined by the month and year of manufacture, and buses manufactured before January 1, 1971, are no longer regulated under the *Motor Vehicle Safety Act* by virtue of their age. While Transport Canada does not regulate the importation of these vehicles, it does not preclude the vehicles from having to meet provincial/territorial safety and licensing requirements. Importers of such vehicles are required to complete a Vehicle Import Form 1, at the time of importation, and present proof of ownership. Also, please contact the Canada Border Services Agency (CBSA) for clearance requirements.

**14. MANUAL TRANSMISSION AND CLUTCH PEDAL (Vehicles manufactured after May first 2005 and newer only)** - If a passenger car, multi-purpose passenger vehicle, truck or three-wheeled vehicle has a GVWR of 4 536 kg or less and is equipped with a manual transmission, it must not be possible to start the engine unless the clutch pedal is depressed or the drive train is otherwise disengaged. If it is possible to start the engine without the clutch pedal being depressed or with the drive train engaged, the vehicle will fail the RIV inspection.

**SECTION 1 - THE REGISTRAR OF IMPORTED VEHICLES (RIV)**

On April 12, 1995, a new *Motor Vehicle Safety Act* and revised Motor Vehicle Safety Regulations were proclaimed. The new Act allows vehicles originally manufactured in compliance with U.S. laws for the U.S. market to be imported into Canada, **provided they comply at the time of main assembly with mandatory Canadian Motor Vehicle Safety Standards (CMVSSs)**, such as CMVSS 210 - Seat Belt Assembly Anchorages. The new legislation makes it possible for a vehicle to be modified in certain areas (child restraint tether anchorages, daytime running lights, and some labeling requirements).

To carry out the task of monitoring the importation of vehicles purchased at the retail level in the U.S., Transport Canada has contracted a company called the **Registrar of Imported Vehicles (RIV)** to establish and operate a system of inspection and compliance confirmation of imported vehicles. The program is a controlled process of federal registration, inspection and verification to ensure that a U.S. specification vehicle is confirmed compliant to all CMVSSs prior to provincial/territorial licensing and registration in Canada.

Some of the benefits of this program to Canadians are to:

- ensure the safety of vehicles on Canadian roads;
- allow vehicles that do not meet Canadian safety standards, in such areas as, daytime running lights, child restraint tether anchorages, and some labeling requirements, to be modified after they enter Canada;
- assist importers through a support system, including a bilingual public response service (**1-888-848-8240**);
- assist the Government of Canada to develop and maintain an accurate and comprehensive data base on such importations;
- assist Transport Canada in its enforcement efforts; and
- assist provinces and territories to enable checks of vehicles prior to licensing and registration in Canada, in compliance to federal safety standards.

Upon arrival at the border, importers must produce the vehicle's title, documents related to its purchase and a valid driver's license or passport.

There must be evidence - a Statement of Compliance (SOC) label or a manufacturer's letter - stating that the vehicle was built to comply, and complied to U.S. Federal Motor Vehicle Safety Standards (FMVSSs) at the time of main assembly. Importers must have the means of paying the RIV fees, customs charges and applicable taxes by Visa, MasterCard, AMEX, certified cheque or money order. A confirmation that there are no outstanding recalls on a vehicle or proof that the recall work has already been completed in the U.S. must be sent to the RIV as soon as possible before, during or after importation. To verify what types of confirmation of no outstanding recalls are accepted by the RIV, please visit their Web site at: [www.riv.ca/english/html/recall\\_clearance.html](http://www.riv.ca/english/html/recall_clearance.html). Send your confirmation of no outstanding recalls to the RIV by e-mail at [recall@support.riv.ca](mailto:recall@support.riv.ca), or by fax at 1-888-642-9899, or mail to 405 The West Mall, Toronto ON M9C 5K7.

The Registrar's fee is \$195.00 Cdn (plus GST/HST) at Designated Ports and at Non-Designated Ports, in all provinces except Quebec, where the fee is \$195.00 Cdn (plus GST and QST). A list of Designated Ports follows this section. The importer is responsible for the actual costs of modifying the vehicle. There are also fees and charges resulting from failure to pass the initial inspection within 45 days.

**SECTION 2 - GENERAL**

<b>VEHICLE TYPES</b>	<b>ADMISSIBLE</b>	<b>INADMISSIBLE</b>	<b>NOTES</b>
<b>All vehicles</b> (except buses) <b>FIFTEEN (15) YEARS OLD OR OLDER</b>	All are admissible, provided they have not been substantially modified (see notes)		Importer must be able to provide proof that the vehicle is fifteen (15) years old or older as determined by the month and year of manufacture.
<b>Buses</b> manufactured <b>BEFORE</b> January 1, 1971	All are admissible, provided they have not been substantially modified (see notes)		Importer must be able to provide proof that the bus was manufactured prior to January 1, 1971.
<b>Buses</b> manufactured <b>AFTER</b> January 1, 1971	Refer to Section-6 for BUSES  Refer to Section-7 for SCHOOL BUSES	Refer to Section-6 for BUSES  Refer to Section-7 for SCHOOL BUSES	N.B.: If model has a designated seating capacity of <b>MORE THAN 10</b> including the driver, it is a bus.
<b>Trucks and pick-up trucks</b> with a GVWR <b>inferior or equal to 4536 kg (10,000 lbs) LESS THAN FIFTEEN (15) YEARS OLD</b>	All trucks with GVWR of 4536 kg or less manufactured <b>BEFORE</b> September 1, 2007 are admissible  For trucks with GVWR of 4536 kg or less manufactured <b>AFTER</b> September 1, 2007, refer to Section 12	All vehicles that have undergone alterations other than typical repairs are inadmissible	See <a href="#">EXPLANATIONS</a> section.  GENERAL MOTORS: GM advises to contact GM Vehicle Vintage Services group at 1-888-467-6853 (toll free) or 1-905-440-7689 (outside Canada) to obtain recall clearance documentation.
<b>Trucks</b> with a GVWR <b>greater than 4536 kg (10,000 lbs) LESS THAN FIFTEEN (15) YEARS OLD</b>	All trucks with a GVWR greater than 4536 kg (10,000 lbs) are admissible (see notes)	All vehicles that have undergone alterations other than typical repairs are inadmissible  All trucks and truck tractors manufactured from <u>glider kits</u> <b>without verifiable proof of compliance</b> by the final assembler to applicable U.S. federal motor vehicle safety standards (FMVSS) <b>are inadmissible</b> (see notes)	See <a href="#">EXPLANATIONS</a> section.  Trucks and truck tractors manufactured from <u>glider kits</u> , whether obtained directly from an original equipment manufacturer or through a truck dealership, <b>must be certified "as a whole"</b> by the final assembler to applicable U.S. federal motor vehicle safety standards (FMVSS)  The importer should obtain proof of FMVSS certification and submit the information to the Registrar of Imported Vehicles (RIV) for validation prior to purchasing or importation to reduce the risk of being denied importation into Canada
<b>Trailers</b> <b>LESS THAN FIFTEEN (15) YEARS OLD</b> , including: utility trailers, enclosed cargo trailers, low-chassis trailers, air braked trailers, travel trailers, fifth wheel trailers, horses/stock trailers, boat trailers, car dollies, portable air compressors, log splitters, wood chippers, etc.	All trailers manufactured <b>BEFORE</b> September 1, 2007 are admissible  All trailers manufactured <b>AFTER</b> September 1, 2007 with GVWR of 4536 kg or less are admissible  For trailers manufactured <b>AFTER</b> September 1, 2007 with a GVWR greater than 4536 kg, refer to Section 11 for additional requirements unless the trailer belongs to following list of <b>EXEMPTIONS WHICH ARE ADMISSIBLE INTO CANADA</b> :  (a) a pole trailer, a pulpwood trailer, a wheels back trailer or a trailer designed to be used as temporary living quarters (i.e. travel / RV trailer); (b) a low-chassis trailer (i.e. horse / stock trailer,	Trailers <b>WITHOUT</b> a valid legible 17-character Vehicle Identifier Number (VIN) are inadmissible  Trailers <b>WITHOUT</b> a valid U.S. manufacturing statement of compliance label or letter from the manufacturer are inadmissible  Home-built trailers being imported by someone <b>OTHER</b> than the original builder are inadmissible	See <a href="#">EXPLANATIONS</a> section.  Note 1: A home-made trailer can be imported into Canada if it has been built by the importer. Other conditions also apply.

THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY - Apr/10/2013 Edition

SECTION 2 - GENERAL (Cont'd)

VEHICLE TYPES	ADMISSIBLE	INADMISSIBLE	NOTES
	<p>boat trailer); and (c) a trailer designed to interact with, or having, work-performing equipment located in or moving through the area that would be occupied by a horizontal member that meets the configuration requirements specified in the standard.</p> <p>For home-made trailer, see Note 1</p>	All trailers that have undergone alterations other than typical repairs are inadmissible	
<p><b>Sport Utility Vehicles, Travel Vans, Conversion Vans and Disabled Access Vehicles</b> LESS THAN FIFTEEN (15) YEARS OLD</p>	See Notes		There are numerous restrictions on these types of vehicles. Please refer to one of the sections 5.1 to 5.6 in the table of contents specific to the vehicle category of interest.
<p><b>Salvage</b> or damaged vehicles purchased in the United States</p>	<p>You can <b>only</b> import salvage or damaged vehicles that are listed as <b>admissible and accompanied with</b> a U.S. vehicle "Certificate of title" showing: CLEAR, SALVAGE, REBUILDABLE, REBUILT, REPAIRABLE, REPAIRED or other equivalent</p> <p><b>NOTE:</b> Vehicle that are listed as <b>admissible</b> with a brand of salvage/flood are considered as non-repairable by all licensing jurisdictions in Canada. <b>These vehicles cannot be imported as vehicles to be rebuilt.</b> This also applies to vehicles bearing evidence of flood damage when being presented at the Canadian border for importation.</p>	<p>You <b>cannot import</b> salvage or damaged vehicles that are listed as <b>inadmissible regardless</b> of the U.S. title brand.</p>	<p>Importer must submit a valid "Certificate of Title" from a U.S. State motor vehicle licensing authority when entering Canada.</p> <p><b>Branding information is verified</b> by the RIV through U.S. databases verification at <b>importation</b>. Salvage brands are further reported to all provincial and territorial licensing jurisdictions in Canada, <u>even if the vehicle title provided at importation indicated otherwise</u>. In certain circumstances, this can severely limit your ability to get the vehicle licensed and insured in Canada when the branding information is inconsistent.</p> <p>Visit <a href="http://www.riv.ca">www.riv.ca</a> for further details.</p>
<p><b>Vehicles purchased in the United States imported for parts only</b></p>	<p>You can import vehicles for parts only provided they that are <u>listed as admissible</u> regardless of the U.S. title brand.</p> <p>Vehicles that are <u>listed as inadmissible</u> can be declared for <u>parts only</u> provided they were originally certified to United States FMVSS and are accompanied by a "Salvage" U.S. title brand.</p> <p><b>NOTE:</b> Once a vehicle is declared for "parts only" at importation, it is given a non-repairable status. The RIV reports the non-repairable status to all provincial and territorial licensing jurisdictions in Canada. <b>This status cannot be reversed and the vehicle can never be licensed in Canada.</b></p>	<p><b>You cannot import</b> vehicles for parts only that are <u>listed as inadmissible</u> for which valid proof of compliance to FMVSS <u>and</u> "Salvage" U.S. title brand cannot be confirmed.</p>	<p>The <b>Form-3</b> declaration must be completed when importing a vehicle as "disassembly for parts only". The status is <u>final</u> and cannot be modified once completed.</p> <p>Visit <a href="http://www.riv.ca">www.riv.ca</a> for further details.</p>
<p><b>Kit Cars</b> LESS THAN FIFTEEN (15) YEARS OLD (assembled or unassembled)</p>		None are admissible	

THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY - Apr/10/2013 Edition

### SECTION 2 - GENERAL (Cont'd)

VEHICLE TYPES	ADMISSIBLE	INADMISSIBLE	NOTES
Competition Vehicles	All models		Competition Vehicles are designed for use exclusively in closed-course competition. These vehicles are exempt from the RIV program provided they: bear a label affixed by the manufacturer stating, in both official languages, that the vehicle is a competition vehicle and is for use exclusively in closed-course competition, or is accompanied by a signed declaration clearly indicating that the vehicle is a competition vehicle and is for use exclusively in closed-course competition. This signed declaration MUST come from a racing sanctioning body, i.e. FIA, AMA, CART, etc.

### SECTION 3 - PASSENGER CARS

#### 1998 MODELS OR NEWER

(See Section (2) General for vehicles fifteen (15) years old or older as determined by month and year of manufacture)

MANUFACTURER	ADMISSIBLE	INADMISSIBLE	NOTES
ACURA			SEE HONDA
ALFA ROMEO	2008 Alfa Romeo 8C Competizione 2009 Alfa Romeo 8C Spider	All other passenger car models are inadmissible.	See <a href="#">EXPLANATIONS</a> section.  There were no Alfa Romeo passenger car models built for the U.S. between 1995 and 2007.
ASTON MARTIN	1998 TO 2013 All models		See <a href="#">EXPLANATIONS</a> section.
AUDI	1998 TO 2013 All models  2000 TT Coupe (see note-1)>		See <a href="#">EXPLANATIONS</a> section.  Note-1: VW of America has indicated that some 2000 TT models require replacement of seat backs for tether anchorage modifications (to comply to CMVSS 210.1). Importer should verify with VW of America before importing a vehicle into Canada as modifications may be expensive.  DAYTIME RUNNING LAMPS: Some U.S. Audi vehicles may be equipped with a Multi Media Interface (MMI) system which can turn off the Daytime Running Lamps (DRLs) while vehicle is in motion. In Canada, DRLs must be permanently on once a vehicle is in motion. The DRL control system of such vehicles may need to be re-programmed to disable the feature that permits turning off DRLs. Contact an authorized Audi dealer for more information.
BENTLEY	1998 AND 1999 All models built BEFORE September 1, 1999 (see Notes 1 and 2) 1999 TO 2013 All models built AFTER September 1, 1999 (see Notes 1 and 3)	Contact the manufacturer for information on newer models	See <a href="#">EXPLANATIONS</a> section.  Note 1: Bentley Canada informed Transport Canada that ALL modifications MUST be performed (and documented) by an authorized Bentley Canada dealer and must be completed before a recall clearance letter can be issued by

**SECTION 11 - ALL TRAILERS (see exceptions) WITH A GVWR OF 4 536 KG OR MORE, MANUFACTURED AFTER SEPTEMBER 1, 2007, MUST BE EQUIPPED WITH A REAR IMPACT GUARD (RIG) THAT CONFORMS TO SECTION (3) OF CMVSS 223 - REAR IMPACT GUARD. See "EXPLANATIONS" section, paragraph #10.**

**THE EXCEPTIONS ARE:**

- (a) a pole trailer, a pulpwood trailer, a wheels back trailer or a trailer designed to be used as temporary living quarters (i.e. travel / RV trailer);  
 (b) a low-chassis trailer (i.e. horse / stock trailer, boat trailer); and  
 (c) a trailer designed to interact with, or having, work-performing equipment located in or moving through the area that would be occupied by a horizontal member that meets the configuration requirements specified in the standard.

Most trailers with a GVWR of 4,536 kg. or more sold at the retail level in the U.S. and manufactured after September 1, 2007 may not be equipped with a rear impact guard that conforms to Canadian requirements. The following is a list of manufacturers who have demonstrated compliance to CMVSS 223, Rear Impact Guard.

SECTION 12 - TRUCKS WITH GVWR LESS THAN 4536 KG, MANUFACTURED AFTER SEPTEMBER 1, 2007

All vehicles that have undergone any alteration other than typical repair are inadmissible.

MANUFACTURER	ADMISSIBLE	INADMISSIBLE	NOTES
CHEVROLET			SEE GENERAL MOTORS
CHRYSLER / PLYMOUTH / DODGE / EAGLE / JEEP	2007 TO 2013 All models - see [EIS] note		See <a href="#">EXPLANATIONS</a> section.  [EIS] <b>Electronic Immobilization System:</b> for vehicles built AFTER September 1, 2007, you must read paragraph #9 of the "EXPLANATIONS" section.
DAIHATSU	Contact manufacturer to verify admissibility of a vehicle.		See <a href="#">EXPLANATIONS</a> section.
FORD MERCURY / LINCOLN	<b>Please read all notes</b>  ALL 2007 to 2013 models of - Econoline cargo vans - E-series cargo vans - F-series pick-up trucks - Lincoln pick-up trucks  2008 TO 2011 - Ford Ranger  2009 TO 2013 - Transit Connect  <b>Note:</b> Some models <u>may not be equipped</u> with a factory issued Ford SecuriLock® anti-theft immobilizer system. See [EIS] note	<b>Vehicles that have been customized or undergone further manufacturing are considered inadmissible</b> because they are no longer considered certified by the Original Equipment Manufacturer (OEM).  Further certification for the final product must be obtained and validated to allow its importation.	See <a href="#">EXPLANATIONS</a> section.  [EIS]: Some models <u>may not be equipped</u> with factory issued <b>Electronic Immobilization Systems</b> . Importers must ensure that EIS requirements can be met and should contact the manufacturer prior to importation if it appears the vehicle requires an EIS installation. Read paragraph #9 of the "EXPLANATIONS" section for more information about EIS.  DAYTIME RUNNING LAMPS (DRLs): Many Ford models have a configurable lighting system module that can be reconfigured. Contact an authorized Ford or Lincoln dealer for additional information.  For trucks with a GVWR more than 4,536 kg, see Section 2 - GENERAL  For E-series Wagons (passenger vans), refer to Section 5.4 (MPVs with GVWR less than 4,536 KG manufactured AFTER September 1, 2007) N.B.: If model has a designated seating capacity of MORE THAN 10, it is a bus (see Section 6: Buses).
GENERAL MOTORS / CHEVROLET	2007 TO 2013 All models  <b>Please read all notes</b>	<b>Please read all notes</b>	See <a href="#">EXPLANATIONS</a> section.  Note 1: [EIS] <b>Electronic Immobilization System:</b> for vehicles built AFTER September 1, 2007, you must read paragraph #9 of the "EXPLANATIONS" section.  Note 2: Some U.S. GM vehicles are equipped with a feature that can turn off the Daytime Running Lamps (DRLs) while vehicle is in motion. In Canada, DRLs must be permanently on once vehicle is in motion. The DRL control system of your vehicle may need to be reprogrammed to neutralize the feature that permits turning DRLs off. For more information, please contact a GM dealer.  Importers can also contact GM Vehicle Vintage Services group at 1-888-467-6853 (toll free) or 1-905-440-7689 (outside Canada) to obtain a recall clearance letter.
HONDA	2007 TO 2013 All models	<b>Please read all notes</b>	See <a href="#">EXPLANATIONS</a> section.
